Sam Ford has been arrested on a charge of carrying intoxicating liquors to sell them, contrary to the statutes. The arrest was made by Deputy Marshal Foxworth on a state information. After the arrest the saloon near the corner of Broadway and Bryant streets was raided and the contents, which, it is alleged, are Ford's property, were confiscated. It was found that there were four barrels of choice whisky, valued at \$1,000. Ford does not deny the ownership of the liquor, but claims he does not have to pay a monthly tax.

Since a systematic effort was commenced, four months ago, to secure additions to the membership roll of the Young Men's Christian association, the number of members has been secured, making the total membership at present 573. Of those who have joined in the last two months only 10 per cent are active members. There is talk among the members of erecting an association building. Ottumwa has just completed a \$30,000 structure, and that fact is urged by some of the project as a reason why Council Bluffs should join the procession.

An answer was filed yesterday afternoon in district court in the case of Benjamin O. Tabor against Mrs. Louisa Beck. It was commenced some time ago for the purpose of setting aside a deed to some property that had been decided by Mrs. Tabor, years ago, to Mrs. Beck. In the answer it is alleged that Tabor, who claims a divorce interest in the property from the fact that the deed was executed by his wife without his signing with her, was a fugitive from justice at the time, he having been indicted for the crime of murder, and having left the country in order to avoid being tried. It is also charged that Tabor knew of the sale of the property, and he even directed his wife to make it, in order that she might join him in Texas where he was in hiding. A similar answer was placed on file in the case of Benjamin O. Tabor against Fred Lentzinger, in which the allegations are the same.

NEWS FROM COUNCIL BLUFFS.

Case Against Dr. P. P. Bellinger Falls Rather Flat.

ARREST OF THE PROSECUTING WITNESS.

Dr. Bryson Charged with Conspiring to Injure and Break Up the Institution—Alleged Trial of Blackmail.

The main attraction at the court house yesterday was the trial of Dr. P. P. Bellinger and F. Grung, on the charge of having practiced medicine without a permit from the state board of health. The trial had been continued six different times that it was the opinion of some that it would never come off. Subsequent developments, however, show that Dr. Bryson from Omaha, who commenced suit, failed to make connections, so that the trial had to come off as announced.

A number of witnesses were introduced, but each one of them was through a long drawn out course of questioning. After the case had been completed, so far as Bellinger was concerned, he was discharged, and the same kind of a dose was administered to another set of witnesses with a view of finding out whether or not Grung had been practicing medicine as a physician, or had only been acting as a nurse for Dr. Bellinger. Among the witnesses were E. P. Daniels, J. B. Daniels, Peter Sanding and a Miss Bingham, who had been a patient at the Bingham hospital. The latter was very much loath to testify, and had to be brought into court by Marshal Pennington by means of a bench warrant from Judge McGee. Grung had taken charge of patients on his own hook, their universal testimony being that Grung had not and need not be under the direction of Dr. Bellinger. The case had to be continued last evening until Monday morning in order to give the prosecution a chance to file a motion which was made to Omaha and could not be filed.

Just as court had adjourned for the night Constable Nicholson stepped up to the bar, charging him with the crime of conspiracy. The information had been filed in Justice Hammer's court by Dr. Bellinger, charging Bryson with having entered into conspiracy with one Henning for the purpose of injuring the business of Dr. P. P. Bellinger. Bryson was taken to the office of Justice Hammer, where he entered a plea of not guilty and had his bond fixed at \$1,000. He will have a hearing this afternoon at 2 o'clock.

PROUD OF THE BAND.

Prof. Phinney's Great Organization Deservedly Praised.

While there have been many delightful attractions at the Council Bluffs Chautauqua since its first day, none have given more genuine pleasure nor delighted more people than the concert of the Iowa State band under the leadership of that thorough and enthusiastic leader and director, Mr. Fred Phinney. The band throughout its extended repertoire has shown a really wonderful appreciation of the requirements, and the result has been the music of the famous composers of the past as delightfully as the more modern descriptive compositions.

But the enthusiasm aroused among the people has a counterpart in the satisfaction expressed by the management of the Chautauqua at the work which this comparatively young organization has accomplished in the five years of its existence, although but two years ago it took the title of the Iowa State Band. Its management recognizes what a card the band has become. But there is a distinct pleasure in the thought that should Council Bluffs and Omaha but ever hear the concert during the season, they will again be charmed by the music of the superb organization next year.

Taking the size of the band in consideration, there being only thirty-two men in the organization, its complete instrumentation is something which is rarely seen. The organization will do well to ponder over. Individual players have been substituted for the perfect ensemble which has been a number of clever soloists with the band, the reason for its success is found in the union attained. And that is the secret of its success. It is the result of the union of Cappa, Sousa and Gilmore in both wood and brass instruments.

Mr. Phinney, an enthusiast in band matters and his best thought was given to giving to the Hawkeye state an organization rivaled only by two or three national bands. The list of soloists has been as follows: French horns, 3; bassoons, 1; oboe, 1; trombones, 3; E flat tuba, 1; double B flat helicon tuba, 1; euphonium, 1; cornet, 1; saxophone, 2; trumpet, 2; bugle, 2; snare drum, 1; cymbals, and a Chinese tam-tam.

People in general should know what's best to do in case of a sudden attack of bowel complaint. It is a well established fact that prompt relief may be had in any case of colic, cholera morbus, dysentery or diarrhoea by giving a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It acts quickly, can always be depended upon and is pleasant to take.

Opening the bids. The members of the school board are beginning to appreciate some of the beauties of the new law regarding the purchase of school books by the district. The president of the school board, it is said, is afraid to call a meeting of the board, for he knows the question what books shall be used during the coming year must then be decided. The officers of the individual members of the board nowadays have taken on the appearance of branch offices of some wholesale book house. Around the hotels can be seen traveling representatives of the leading book stores of the country by the dozen, smoking quarter cigars and waiting for a chance to explain to the members why the books they are selling are better than any others.

When the question comes up for a decision a long and interesting session is looked for. There are about a dozen firms in the city and each one, if it is supposed, has put its bid down at low price, knowing that it would be the one to do the same. An effort will be made to get one of the local book stores to handle the books at a certain percentage of profit, and the one who puts in the lowest bid on this will be awarded the contract, in case this method of selling the books does not prove to be more expensive than it would be for the board to set aside a room and a teacher for the express purpose of dealing out the books to the parents of the school children by the new system will be not less than \$1,000 per annum, and in all probability more.

A Good Reason. Dr. A. T. Dell, who has been in the practice of medicine at North English, Ia., since 1863, says he often prescribes Chamberlain's Colic, Cholera and Diarrhoea Remedy, because he knows it to be reliable.

UNION PACIFIC MAY BE BOYCOTTED.

Agent Lomax's Determination to Manage His Company's Affairs Provokes Numerous Threats from Eastern Railroads.

Chicago, July 15.—The spicy correspondence between Chairman Finley and General Lomax of the Union Pacific of Alton was continued today. In reply to Mr. Finley's letter asking what the Alton would do if the association made a rate of one fare for the round trip on the occasion of the Grand Army encampment at Detroit, Mr. Charlton stated that his road would at least make the same rates apply locally between its terminal point.

In reply to Mr. Finley's further communication, stating that the association had agreed to make a rate of one fare for the round trip, Mr. Charlton wrote announcing that the Alton would make a rate of \$10 from Kansas City to Chicago and return, and \$8 from St. Louis to Chicago and return.

The Western Passenger association finished up its business today and adjourned to meet at Lake Minnetonka on the second Tuesday in August. Action was postponed on the question of placing tickets on sale in the city hotels, to await the result of a meeting of the Ohio River Traffic association in session at Cincinnati. That meeting is considering a request from Chairman Finley to the Ohio river lines to withdraw their tickets from the hotels.

SCOLDING THE UNION PACIFIC. The eastern roads that write to Passenger Agent Lomax of the Union Pacific requesting him to use a form of ticket that would mean a loss to the Union Pacific, are already scolding him for not doing so. It is considered a request from Chairman Finley to the Ohio river lines to withdraw their tickets from the hotels.

The first three named were waiting trial for burglary. Rivers and McLaughlin were waiting trial for robbery.

Kansas Settlers Wrothy. TOPEKA, Kan., July 17.—The refusal of the Trans-Missouri Passenger association to grant harvest home-seekers excursion rates has created the most intense feeling here and steps are being taken to force a most vigorous protest against what is termed the most flagrant discrimination against Kansas. A mass meeting will be called by the board of trade to take action in the matter and see if some plan cannot be devised to force the railway to recognize the necessity for cheap rates to Kansas.
